MySQL • Database Design • Eloquent • Authentication • Spatie Roles & Permissions

Ways of Working

API Documentation • Debugging • Code Review • Jira • ClickUp • Agile/Scrum

■ PROFESSIONAL EXPERIENCE

XpertDigi — Lahore

Aug 2025 – Present

Full Stack Web Developer

- Delivered MY AIO as a Laravel/Vue.js full-stack developer, building backend logic, MySQL workflows, and the complete Tailwind CSS interface from Figma designs.
- Integrated BrightLocal, Substack, and other SEO/audit APIs for website audits, local-search analysis, ranking insights, and automated reporting workflows.
- Built MY AIO SaaS features with Next.js and FastAPI, including agency accounts, teams, packages, subscriptions, roles/permissions, and client quota allocation.
- Bots (Python / VideoGen API): Developed video-generation workflows for this mobile SEO automation application. Interpreted complex VideoGen documentation and implemented prompt-to-video creation, voice selection and voice-over, and background-music options for high-quality generated content.

Technology Innovation — Lahore

Jun 2024 – Jul 2025

Full Stack Developer

- Developed Capone, an Italian B2B food and bakery commerce platform, across Symfony/Shopware, Vue.js, MySQL, inventory, ordering, and agent workflows.
- Integrated Shopware and third-party pricing APIs and implemented original, discounted, supplier, markup, and sales calculations.
- Created monthly, annual, and comparative dashboards and reports for agent inventory, products, orders, bakeries, and sales activity.

The Right Software — Islamabad

May 2022 – Apr 2024

Full Stack Developer

- Built Cash Black e-commerce functionality with Laravel, Vue.js, and MySQL for products and services including cosmetics, clothing, shoes, and hotel bookings.
- Applied maintainable Laravel architecture using controllers, services, middleware, reusable business logic, authentication, authorization, and database relationships.
- Developed The Right Apps ERP with Laravel and Livewire, implementing custom workflows, Livewire events, and granular access control through Spatie roles and permissions.

SoftSquare — Lahore

Feb 2020 – Apr 2022

Laravel Backend Developer

- Built Laravel REST APIs and financial business logic for Finwiz, a banking platform supporting customer calculations and balance management.
- Documented API behavior and integration requirements for the mobile application and coordinated delivery with mobile developers.

Apponative — Lahore

Mar 2019 – Jan 2020

Full Stack Developer

- Developed Moving with Sam using React, Laravel, and MySQL for moving, travel, luggage, parcel, courier, and home-relocation workflows.
- Delivered React interfaces, Laravel REST APIs, backend business logic, database operations, bookings, and end-to-end delivery integrations.
